

# Inkjet and Toner Cartridges

Do you have a printer or fax at home? Or does your workplace throw away their printer, fax and photocopier cartridges after they have run out? If yes, then you can help us raise money by giving them to us. By doing this we can get money by recycling them.

Did you know that almost 90% of all office printing and copier cartridges can be reused or recycled. By returning them to us you're not just helping a good cause but you're also helping to protect the environment.

If you are interested in getting involved, or would like your work/company to get involved, then please complete and return the form below to us at:  
Cartridge Recycling, Autism London, 1 Floral Place, London N1 2FS. Alternatively please call Milena on 020 7704 1123 to register your interest.
